## Introduction.

From the enduring philosophy that is the circle of life comes King Mufasa, the King of all Meme Tokens, the unchallenged Alpha Lion of the Meme Pride. King Mufasa \$MUFA is a decentralized, community-driven, and charity-conscious meme token. Its powers are drawn from the millennia of royal heritage of Africa's mightiest Kings and wisest ancestors. These sacred powers cement the lion's place at the zenith of the food chain.

However, King Mufasa like all his great ancestors remains conscious of the burden of responsibility upon him to take care of and respect each member of the Meme Kingdom. From the soaring eagle to the leaping frog, King Mufasa is universally loved and respected by his subjects as much as he loves and bestows his magnanimous charity on them.

King Mufasa is on a sacred mission to sit atop the Meme Throne, and you can be a part of this exciting journey. Universal adoption is inevitable, join us now.
